| 11. Assistant Engineer Mtea | (Mr. M. Ashiq) |

2. Chairman remarked that instructions for the construction of temporary sheds in MPO were issued as far back as 16th June, 1973 but this simple project was yet to be implemented despite lapse of nearly two years. Chairman added that he had gone through the relevant file and found that the project had suffered due to lack of attention to it by the officers concerned who have been postponing final decision on it without any good reasons. A view was expressed at the meeting that if the Directors were permitted to obtain administrative & expenditure sanctions directly from the Finance Wing for works in respect of which they could grant the technical sanction such delays could be avoided.

After discussion following decisions were taken:-

- a) Temporary sheds in MPO should be completed by Director Maintenance by 15.7.75.
- b) The Directors may be allowed to approach the Finance Wing directly for the grant of Administrative and expenditure sanction in respect of works for which they can issue the technical sanction.
- c) The Director Maint: should make available the file relating to the construction of MPO sheds

to the Secretary by 5.7.75. The Secretary shall fix responsibility for delay in this case and furnish his report to Chairman.

- d) The main structure of sheds would consist of pipes covered with tarpauline and Deputy Director Maintenance-I will exercise all the powers of a Project Engineer for executing this work departmentally.
